Amendment to the Memorandum of Association

1 Amendment executed on 7 October 2026

The members replace the management provision of the memorandum of association with the following provision: Yusuf Rashid shall be the sole manager of the Company. He is authorised to manage the business of the Company and to execute contracts on its behalf within the powers provided by applicable law and this memorandum. The acquisition of the shares in Havelquarz Intelligenz & Grund GmbH approved by the members on 6 October 2026 is included in the intended scope of his management authority.

The members confirm that Maryam Al Noor shall no longer hold office as manager following the effectiveness of this amendment. The remaining provisions of the memorandum of association remain unchanged. The administration shall submit this amendment to the competent licensing and registration authority and obtain the resulting updated records.

The amendment records the appearance of Khalid Rashid and Salma Nasser before the competent notarial office in Dubai on 7 October 2026. The copy supplied to Berlin contains the notarial transaction reference DN-2026-1007-5638 and the signatures of the two members. It does not contain a certification that the licensing and registration procedure had been completed on that day.
